I write books about super powerful kids, and I believe anyone can be a superhero!

"I cannot tell you how wonderful your visit was. We heard so many fabulous comments from kids and teachers alike."

Cicily Waneck

"The average college student has an attention span of 45 minutes, so I was incredibly impressed with your presentation-the kids were paying attention the whole time and they keep talking about it!"

"Meredith was so fabulous in answering the students' questions and keeping them engaged that many teachers asked me if she had been a teacher."

Lisa Patti
